EXPERIENCE

Frontend Developer Intern

COPE STUDIO, POLYGON

📅 Jul 2022 - Dec 2022

- Worked on the frontend of multiple webpages using CSS animations and frameworks.
- Created various 2D animations using GSAP and ScrollMagic libraries.
- Built 3D webpages and animations using ThreeJS and WebGL.

Mobile Application Developer Intern

HOORA

📅 Feb 2022 - Apr 2022

- Designed and implemented the UI for customer application using Flutter.
- Built the frontend for the admin website using ReactJS and React-Admin.

UI UX Designer Intern

MOVENCH

📅 Nov 2020 - Mar 2021

- Conceptualized the rebranding of the company.
- Created wireframes for the new official website.

Graphic Designer Intern

THE STAGE

📅 Oct 2020 - Dec 2020

- Designed 100+ posts for their social media platform.
- Collaborated with marketing team and participated in branding discussions.

PROJECTS

Gmail Clone

ReactJS + Redux + Firebase

🔗 [Link] </> [GitHub]

- Developed an app that allows the user to register and sign in with their email id, post messages on the feed and see others' posts on their feed.
- Used firebase authentication for login and firestore for storing the posts.

Rock Paper Scissors Lizard Spock

ReactJS + Redux

🔗 [Link] </> [GitHub]

- Built an extension of the classic game of Rock Paper Scissors.
- User can play the game and see their updated score.

Apple AirPods Pro Animation

Javascript + GSAP + ScrollMagic

🔗 [Link] </> [GitHub]

- Built a clone of the very popular Apple Airpods scroll animation.
- Used Greensock Animation library for the effects and ScrollMagic for the scrolling effect.

3D Galaxy Effect

ThreeJS + WebGL

🔗 [Link] </> [GitHub]

- Created a 3D Animation that replicates a galaxy with various particle effects and textures.
- Used ThreeJS and WebGL for the shaders.
